

True Image Photography Videography Services

Did you know ...

*That 49% of brides who had a family member or friend videotape their wedding said that they would use a professional Videographer if they had it to do over, and that 60% - of brides who had **no video** of their wedding done, wish that they had --- in hindsight.*

Don't miss a moment; let us preserve everything with professionally produced video that can last a lifetime. Our video can capture the moment in a way which will complement our still photography.

True Image Photography use high quality digital cameras and wireless microphones to ensure the best quality productions. Our digital productions can feature multiple cameras that allow us to capture from every angle of your ceremony without obtrusive camera movements. These wedding documentaries can include professional digital editing to produce a video you'll want to watch over and over again.
